

A MASTERPIECE.

Senator T. Delivers an Address to the Convention.

GOVERNOR WAITE SPEAKS.

More Blood to the Bridges—Resolutions Adopted Demand Unconditional Free Coinage—An Attack on President Cleveland.

CHICAGO, Aug. 2.—The delegates to the national bimetallic convention were in session this morning, the evening session of yesterday having been adjourned to so late an hour that a quorum was not present at 9:50 this forenoon. General George Tabor presided over the assembly, but the financial matters that had been embarrassing the committee would be satisfactorily adjusted.

Senator N. P. M. of Colorado addressed the convention on the silver question in nearly an hour. He spoke substantially as follows:

The following topics of long and discussion on this and other gold standard countries, the existing depression, the diminishing of the silver profits of production, the falling wages of labor, and the increasing number of those who cannot find employment at all.

It is often said that the present depression is due to a deficiency of money. It is not a deficiency of money, but a deficiency of the right kind of money. It is not a deficiency of money, but a deficiency of the right kind of money.

The conditions of the present depression are not due to a deficiency of money, but to a deficiency of the right kind of money. It is not a deficiency of money, but a deficiency of the right kind of money.

The conditions of the present depression are not due to a deficiency of money, but to a deficiency of the right kind of money. It is not a deficiency of money, but a deficiency of the right kind of money.

The conditions of the present depression are not due to a deficiency of money, but to a deficiency of the right kind of money. It is not a deficiency of money, but a deficiency of the right kind of money.

INTERNATIONAL CO-OPERATION.

We must maintain a constant readiness to join in any sane international arrangement which promises to restore the bimetallic conditions which existed prior to 1873. The hope of such arrangements may be small, but it is not without value.

It is a fact that the action of the United States in the silver question is a matter of international importance. It is not a matter of domestic importance, but a matter of international importance.

clation of silver coin to a degree which is beyond the reach of a remedy of increasing of paper money, within the limits of the convertible gold coin. On the other hand, if the United States, which is expanding its gold and silver, should be the only nation to do so, it would be the only nation to do so.

We have too long been frightened by the bugbear of becoming a debtor nation. We have too long been frightened by the bugbear of becoming a debtor nation.

be the first metropolitan city to see the new. Appause.

There was a tremendous applause when Governor Waite of Colorado was introduced as the next speaker.

A number of enthusiastic delegates had been howling for two days for Waite and when the Chief Executive of the Central States was introduced, the cheer which was given by delegates who stood up and waved their arms wildly and the ovation terminated with "three cheers for Governor Waite."

Governor Waite spoke at great length. He asserted that since 1873 no Congress has convened but that a majority in both houses were in favor of restoring the free coinage of silver.

Congress, he continued, never has been able to enact such a law because the President, whether Republican or Democrat, has always been dominated by Wall Street and stood ready to interfere with the free coinage of silver.

He said that the free coinage of silver was a question of justice to the farmer and the laborer, and that it was a question of justice to the farmer and the laborer.

He said that the free coinage of silver was a question of justice to the farmer and the laborer, and that it was a question of justice to the farmer and the laborer.

sign government, and assert the power of this nation to stand on its own feet and legislate for itself upon all subjects.

2. We assert that the only remedy for our financial troubles is to place the mint of the nation to go to gold and silver on equal terms, at the ratio of sixteen ounces of silver to one of gold.

Whenever silver is coined can be extended by the mint of the United States for a larger silver coinage. At present, the mint of the United States is only able to coin a few hundred million dollars of silver a year.

He said that the free coinage of silver was a question of justice to the farmer and the laborer, and that it was a question of justice to the farmer and the laborer.

He said that the free coinage of silver was a question of justice to the farmer and the laborer, and that it was a question of justice to the farmer and the laborer.

A SUSPICIOUS CASE.

A Ship Arrives in New York from Plague-Stricken Naples.

DEATHS DURING THE VOYAGE.

Progress of the Cholera in Europe—A Bad Condition of Affairs in Marseilles—Russian Schools Closed—Deaths at Naples.

New York, Aug. 3.—The Anchor line steamer Katamania arrived this afternoon from Naples with a general cargo and 47 passengers. Three deaths occurred during the voyage as follows: July 7—Giosa Bucco, aged 47 years, died at sea. On Aug. 3, Giuseppe Pao, aged 40, and Maria Di Nino, aged 33, died at sea. A third death occurred on the 10th inst. at sea. The passengers came on board at Naples. At sea were the two officers.

The American Press representative boarded the Katamania to inquire into the cause of the deaths which had occurred on the vessel. The surgeon positively refused to talk on the subject even when informed that a suspicion prevailed that it was Asiatic cholera. The doctor, however, declared that he had no doubt that the cause of the deaths was Asiatic cholera. As Dr. Hensley is in New York City to-night nothing can be learned from that quarter.

A seaman on the vessel told the reporter that those who had died had been violent diarrhea. Beyond this he knew nothing as to the cause of the deaths. The officers of the steamer are very reticent regarding the matter and in all cases referred the reporter to the surgeon. They said that at a point now are well.

Cholera in Marseilles. London, Aug. 3.—According to "The Lancet," the well-known English medical weekly, cholera has been epidemic in Marseilles for the last three months. The death toll is as follows: 1,000 in July, 1,000 in August, and 1,000 in September. The disease is now spreading to other parts of France.

On Sunday, Aug. 3.—The government is closing eleven schools in the south of Russia on account of the prevalence of cholera. Twenty doctors have gone to the Caucasus, but to Kiev and ten to Odessa.

A ROT AT LEADVILLE. Shelter Men Refuse to Permit Others to Work. Denver, Aug. 3.—As reported from Leadville, the miners at the Archaean Valley refuse to allow the company to employ a new set of men to work in the mine. The company has offered a bonus of \$100,000 to the miners to take effect at once. Quite a number of the men consented to a fair proposition, but the others refused to go to work. About forty men remained working, but the strikers got out and drove the men who were at work out of the mine. There was a serious riot, and the men were being generally injured. No one is reported seriously injured, although several were badly wounded.

A Man Released. Kansas City, Aug. 3.—Ten years ago, when 13 years old, Mary Brennan took the vows of obedience and chastity with the nuns of the order of the Sacred Heart. After 10 years of life in the convent, she became dissatisfied with her life and a special dispensation was granted her to be released from her vows. She is again a plain Mary Brennan and with a comfortable fortune at her command.

Santa Fe Freight Wreck. Kansas City, Aug. 3.—A disastrous wreck on the Santa Fe railway occurred at Kinsman, a small town south of here last night. A newly loaded freight train en route to Chicago ran into an open switch and the engine crashed into a W. C. Danaher's warehouse, setting it on fire. The building, together with several thousand bushels of grain was consumed. The railway depot and other adjacent property also burnt. A tramp named Rose was killed outright, and two trainmen severely injured. The wrecked several carcasses of cattle were also killed while a great many were liberated and are roaming over the country. The loss is estimated at \$50,000.

Colorado Refugees. Kansas City, Aug. 3.—The Colorado train on the Santa Fe railway, which reached the Union depot at 10 o'clock last evening, brought a number of refugees from Colorado. They had fled from the state to Kansas City at the 80 rate of travel. They were weary and hungry, and many of them were suffering from the effects of the drought. They were being cared for by the city authorities.

4. The way through, and at every stage, Dr. Sage's Catarrh Remedy cures Catarrh. So sure of this fact are the proprietors of the medicine that they offer \$500 reward for any
